

# ROSHNI RAI

## Software Engineer | Full Stack Developer | UX Researcher

rairosdni2005@gmail.com | 9082539451 | [LinkedIn](#) | [GitHub](#) | [Roshni Rai Portfolio](#)

### SUMMARY

Computer Science Engineering student with internship experience in software development and UX research. Proficient in building full-stack web applications using React.js, Node.js, Express.js, MongoDB, and JavaScript. Passionate about developing scalable software solutions and creating intuitive digital experiences through engineering and user-centered design.

### SKILLS

- Programming Languages: C++, Python, JavaScript (ES6), HTML5, CSS3
- Frontend: React.js, Responsive Web Design
- Backend: Node.js, Express.js, REST APIs
- Databases: MongoDB, SQL
- Tools & Technologies: Git, GitHub, Figma
- Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP)
- UX & Product: UX Research, Usability Testing, Heuristic Evaluation, User Journey Mapping, Persona Creation
- Professional Skills: Problem Solving, Product Thinking, Team Collaboration, Leadership, Public Speaking

### WORK EXPERIENCE

Jul 2025 – Dec 2025

#### Reliance Jio Platforms Ltd., Navi Mumbai, India

##### UX Research Intern

- Conducted end-to-end UX research and usability testing for JioGames (Set-Top Box & Cloud Gaming Web), identifying 18+ usability and accessibility issues through heuristic evaluation and task-based testing.
- Applied Nielsen's Heuristics, user journey mapping, and task flow analysis to improve task success rate by 30% and reduce navigation time by 20%.
- Led 30+ user interviews, competitor analysis, and stakeholder discussions to identify user pain points and deliver actionable product recommendations.
- Created high-fidelity wireframes and interactive prototypes in Figma, enhancing onboarding flows and improving overall user experience.
- Collaborated with cross-functional teams to define UX improvements and presented research findings, recommendations, and product roadmaps to senior stakeholders.

#### LetsUpgrade, Navi Mumbai, India

Jul 2024 – Aug 2024

##### UI/UX Intern

- Created and prototyped 30+ responsive application screens for the BTL app using Figma, improving navigation efficiency by 15%.
- Conducted usability testing and incorporated user feedback to increase user engagement by 30%.
- Collaborated with developers to streamline design handoff, reducing design iteration time by 50%.
- Supported product launch activities through usability testing, contributing to 700+ registrations on launch day.

#### LetsUpgrade, Navi Mumbai, India

Dec 2023 – Jan 2024

##### Software Development and Engineering Intern

- Developed and implemented frontend features for the ITM B.Tech website, improving website functionality and user experience.
- Enhanced website performance and responsiveness, contributing to a 15% improvement in overall user experience.

### EDUCATION

#### B.Tech - Computer Science and Engineering

- ITM Skills University, Kharghar, Navi Mumbai
- CGPA: 9.08/10 | Expected Graduation: August 2027

#### Higher Secondary and Secondary Education

- Kendriya Vidyalaya ONGC, Panvel
- 12<sup>th</sup> - Completed 2023
- 10<sup>th</sup> - Completed 2021

## PROJECTS

- **RoshniOS – Personal Portfolio & Career OS**
- React.js | Node.js
  - Built an interactive personal branding platform to showcase projects, skills, achievements, and career journey in a structured digital ecosystem.
  - Integrated case studies, GitHub repositories, resumes, and career timeline into a unified experience to enhance professional visibility and storytelling

**GitHub:** <https://github.com/rairoshni2005/Roshni-Rai-Portfolio>

- **QueueLess – Smart Campus Food & Queue Management System**
- React.js | Node.js | Express.js | MongoDB | Python (AI/ML)
  - Developed a full-stack campus food ordering and queue management system to reduce cafeteria waiting time through digital token generation and real-time queue tracking.
  - Implemented pre-ordering, vendor dashboard, live order management, and customer tracking features to streamline cafeteria operations.
  - Integrated AI-based demand forecasting using Python to help vendors optimize food preparation and reduce wastage.
  - Developed a scalable MongoDB database schema and responsive user interface for seamless ordering across devices.

**GitHub:** [github.com/rairoshni2005/QueueLess-Smart-Canteen-System](https://github.com/rairoshni2005/QueueLess-Smart-Canteen-System)

- **FlowSync – Smart Menstrual Health & Lifestyle Intelligence Platform**
- React.js | Node.js | Express.js | MongoDB | Python (AI/ML)
  - Built a full-stack menstrual health platform to help users track cycles, monitor symptoms, and predict upcoming periods.
  - Implemented features including cycle tracking, symptom logging, mood tracking, calendar visualization, and personalized health insights.
  - Integrated an AI-powered prediction module using Python to provide smarter wellness recommendations.
  - Developed a responsive and user-friendly interface with secure data management using MongoDB.

---

## ACTIVITIES

- Organizer – PIWOT Imagine Hackathon, DevFest Mumbai
- Volunteer – Swift Mumbai Meetup & Google I/O Watch Party
- Participant – Hackathons, Tech Conferences & Events

---

## LEADERSHIP & INVOLVEMENT

- Co-Head, Placement Club – ITM Skills University (2023–Present)
  - Student Representative, External Cell – ITM Skills University (2023–Present)
  - NEP SAARTHI Student Ambassador – UGC, India (2024–Present)
  - Anchor – Republic Day Celebration
  - Volunteer – Wellness Carnival & U Fest
-
